Caution

1. Installation Environment

- This lock is to be placed in the indoor environment, which luminance is in the range of 50-800Lux.
- This lock is used to work under normal light environment. The accuracy and speed of face recognition will decrease if under strong sunshine light, or strong lamplight.
- Do not expose to sunlight, please draw curtains to block out sunlight.
- Please make sure that the lighting condition is the same for both registering face and opening door by face recognition. Otherwise, the recognition performance will be affected.

10Lux

1200+Lux

50-800Lux

2. Installation Height Reference

Assuming the average user height is 5-6 feet tall(1.55-1.85m), then it is about 3.3 feet(1m) high from the ground to the lock handle. For the average user height is over 5.4 feet(1.65m), then the installation height is 3.6 feet(1.1m).
